

AIRPORT OPERATIONS SPECIALIST

DISTINGUISHING FEATURES OF THE CLASS: Under the general supervision of the Airport Operations Supervisor, an individual assigned to this class has rotating shift responsibility to monitor and control airport use and to respond to real or potential emergency situations. The work follows closely prescribed Federal, State and local laws and regulations, though considerable initiative may be required in unusual situations. Assistance for difficult or unusual situations may be available only in the event of emergencies during certain hours of airport operation. The work is reviewed through conferences and analysis of reports. Does related work as required.

TYPICAL WORK ACTIVITIES:

Observes, reports and takes corrective action to comply with both Federal and departmental regulations regarding airport security;

Conducts regular safety inspections of airfield runways, taxiways, lighting and security;

Inspects tenant and concessionaire leased areas;

Inspects all public areas of roadways, parking lots and grounds;

Inspects aircraft movement areas with airline representatives;

Reports safety discrepancies and observes that corrective action is taken;

Closes airfield or portions thereof as safety discrepancies dictate;

Issues notices to aeronautical personnel when appropriate;

Maintains regular contact with airport tenants aeronautical users, FAA, NYDOT and other county departments involved with the airport;

Observes and reports on safety compliance during airport maintenance and construction projects;

Initiates corrective action when conflicts with users develop;

Accomplishes airfield condition and "friction measurement" reports and disseminates same to the FAA and airport users when conditions warrant;

Initiates airport emergency and foul weather plans when required and operates an Aircraft Rescue and Firefighting Vehicle while serving as the on-scene incident commander during aircraft emergencies until relieved by higher level management;

Answers office telephones and radios, and furnishes information regarding airport operations and services;

Maintains a detailed official daily airport log;

Prepares and maintains all required reports relating to field conditions, equipment status and training;

Issues permits for airfield vehicular operations;

Handles lost and found items for airport users;

Coordinates tours and open house activities in airport facilities;

Represents airport management during other than normal hours;

Provides information assistance to the general public regarding airport activities.

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES AND PERSONAL CHARACTERISTICS:

Thorough knowledge of the principles and procedures involved in the operation of a commercial airport;
Thorough knowledge of Federal rules and regulations affecting airport daily operations;
Thorough knowledge of airport procedures and aviation terminology;
Good knowledge of the principles and procedures involved in Aircraft rescue, Firefighting equipment and agents;
Good knowledge of safety considerations in the operation of a commercial airport;
